CAREER OBJECTIVE

As a passionate MERN stack developer, I strive to build scalable, efficient, and user-friendly web applications. I am dedicated to continuously enhancing my skills in modern web technologies, including React, Next.js, Node.js, and MongoDB. My goal is to contribute to innovative projects, optimize performance, and create seamless digital experiences while staying updated with industry trends.

SKILLS

Language: Javascript, Typescript, Python

Frontend Development : HTML, CSS , Tailwind, React.js, Next.js , Redux Toolkit, Tanstack Query

Backend Development : Node JS, Express JS

Database and ORM : MongoDB, MySQL , Mongoose, Prisma ORM

Devops and Cloud : Git, Github, nginx , VPS, Render, Vercel

PROJECTS

Foodies Mama | Multivendor Restaurants and Food Discovery [Live](#), [Github](#), [Docs](#) | Dec 2025

A community food discovery and review platform connecting local food vendors with customers through role-based dashboards and seamless food exploration and order tracking.

- **Role-Based Dashboards:** Users, Vendors (Restaurant Owners), and Admins with tailored interfaces for their specific needs.
- **Food Discovery:** Advanced search, filtering by category/price/rating, and detailed vendor profiles with maps.
- **Review & Rating System:** 5-star ratings, photo reviews, vendor responses, and helpful vote system.
- **Vendor Management:** Complete menu management (add/edit/delete items, pricing, availability), Real-time analytics, Order tracking .
- **User Features:** Order Tracking (Real-time status updates from placement to delivery), Favorites, Profile management, Review history .
- **Admin Features:** Analytics, User Management (Approve, Suspended, Delete) , Vendor Management (Approve, Reject, Suspended, Reviews Moderation).

Blog Kori- Modern Blogging Platform - Team Project [Live](#), [Github](#), [Docs](#) | Sep 2025

Blogkori is offering a clean, intuitive blogging experience where writers can share their thoughts seamlessly, readers can engage meaningfully through comments and reactions, and administrators maintain.

- **Authentication:** Developed secure JWT-based authentication with login, verification, and password reset.
- **Blog Post APIs:** Built APIs for creating, editing, deleting posts, comments, and like/dislike reactions.
- **Admin Features:** user approval/suspension, post moderation, and comment management for admins.
- **Team Collaboration:** Closely work with frontend team using Git, API documentation, and sprint workflow.

PROFESSIONAL EXPERIENCES

Industrial Attachment on Professional Web Development- Creative IT Institute Sep 2025 - Nov 2025

- Built interactive UI components using React, hooks, and reusable component patterns.
- Developed RESTful APIs with Express, including routing, controllers, and middleware.
- Integrated frontend and backend, handled API consumption, and managed application state.
- Worked on debugging, optimization, and implementing best-practice coding standards.

COURSES AND CERTIFICATIONS

MERN Stack Web Development Career Path Batch 04 - Interactive Cares	Feb 2025 - Sep 2025
Backend Development With Node JS - Thapa Technical	Jan 2023 - Jun 2023
Sigma Web Development - CodeWithHarry	Feb 2022 - Nov 2022

EDUCATION

Diploma in Computer Science	Feb 2021 - Dec 2025
• TMSS Polytechnic Institute
